# The legacy of Italian oak.

Ceramiche Atlas Concorde

© Ceramiche Atlas Concorde

Entice is a tribute to Italian oak of the finest quality: with its natural nuances and slender veins, it reproduces the wood's essence with extraordinary fidelity of details and colors.

Entice è un tributo al rovere italiano della qualità più pregiata: con nuance naturali e venature slanciate, ne riproduce l'essenza con straordinaria fedeltà di dettagli e sfumature.

Entice est un hommage au chêne rouvre italien de la meilleure qualité : avec ses nuances naturelles et ses veinures élancées, il reproduit fidèlement l'essence du bois avec un soin extraordinaire des détails et des tonalités.

Entice ist eine Hommage an eine besonders hochwertige italienische Eichenart und gibt das Vorlagematerial mit natürlichen Farbnuancen und feinen Maserungen außerordentlich detailgetreu wieder.

Entice es un homenaje al roble italiano de la mayor calidad: con matices naturales y vetas finas, reproduce la esencia con una extraordinaria fidelidad de detalles y matices.

Коллекция Entice с изумительной точностью воспроизводит благородную текстуру древесины итальянского дуба, ее натуральные цвета, изящные прожилки.

# The Oak Design Style: two souls.

© Ceramiche Atlas Concorde

Entice faithfully reproduces oak wood, offering two different interpretations: the Natural version, with authentic and spontaneous features, and the Elegant version, with a more refined and exclusive spirit.

Entice riproduce il legno di rovere con grande fedeltà, proponendone due differenti interpretazioni: la versione Natural, dai tratti autentici e spontanei, e la versione Elegant, dall'anima più raffinata ed esclusiva.

Entice reproduit très fidèlement le bois de chêne rouvre et en propose deux différentes interprétations : la version Natural, à l'aspect plus spontané et authentique, et la version Elegant, au caractère plus raffiné et exclusif.

Entice interpretiert das Eichenholz detailgetreu in zwei unterschiedlichen Ausführungen: Die Variante Natural mit spontanem, authentischem Charakter und die Variante Elegant, eine edle und exklusive Optik.

Entice reproduce la madera de roble con gran fidelidad, ofreciendo dos interpretaciones diferentes: la versión Natural, con rasgos auténticos y espontáneos, y la versión Elegant, con un alma más refinada y exclusiva.

Entice предлагает две интерпретации текстуры итальянского дуба: вариант Natural с естественным рисунком древесины и вариант Elegant с более изысканными чертами.

THE BENEFITS OF CERAMIC TILES

# Entice Natural: the authentic personality.

With the Natural version, Entice pays homage to the most authentic aspect of oak wood. The knots and tone-on-tone grouting reproduce its most characteristic elements with an accurate wealth of details. The completely matte surface imitates the effect of untreated wood. The result is a material with an authentic character, ideal for creating spaces with a natural, welcoming style.

Con la versione Natural, Entice rende omaggio all'aspetto più autentico del legno di rovere. I nodi e le stuccature tono su tono riproducono i suoi elementi più caratteristici con un'accurata ricchezza di particolari. La superficie completamente opaca imita l'effetto del legno non trattato. Il risultato è un materiale dal carattere autentico, ideale per realizzare ambienti dallo stile accogliente e naturale.

La version Natural d'Entice rend hommage à l'aspect le plus authentique du chêne rouvre. Les nœuds et les fibres ton sur ton reproduisent ses traits les plus caractéristiques ainsi que la richesse soignée des détails. Sa surface entièrement mate imite l'effet du bois non traité. Le résultat est un matériau au caractère authentique, idéal pour réaliser des espaces au style accueillant et naturel.

In der Ausführung Natural stellt Entice die charakteristische Optik von Eichenholz besonders markant heraus. Die Asteingänge und die farblich abgestimmten Kittstellen geben seine besonders typischen Elemente mit großem Detailreichtum wieder. Die vollkommen matte Oberfläche ist der Optik von unbehandeltem Holz nachempfunden. So entstand ein Material mit authentischem Charakter, das ideal zur Gestaltung von Räumen mit besonders wohnlicher und natürlicher Ausstrahlung ist.

Con la versión Natural, Entice rinde homenaje al aspecto más auténtico de la madera de roble. Los nudos y los rellenos tono sobre tono reproducen sus elementos más característicos con gran riqueza de detalles. La superficie completamente mate imita el efecto de la madera no tratada. El resultado es un material con un carácter auténtico, ideal para crear ambientes de estilo natural y acogedor.

В варианте Natural коллекция Entice отражает естественный вид древесины дуба. Его самыми характерными элементами являются сучки и небольшие зашпаклеванные тон в тон изъяны. Абсолютно матовая поверхность имитирует необработанную древесину. В результате получилась плитка с аутентичным характером, идеально подходящая для создания уютной и натуральной обстановки.

THE BENEFITS OF CERAMIC TILES

# Entice Elegant: the refined essence.

The uniform texture and the absence knots in the Elegant version explores oak's finest spirit. Entice Elegant reproduces the appearance of polished, oiled wood: the contrast between the matte veins and the bright, slightly glossy background enhances the three-dimensionality of the planed effect.

La trama uniforme e l'assenza di nodi della selezione Elegant esplorano l'anima più raffinata del rovere. Entice Elegant riproduce l'aspetto del legno levigato e oliato: il contrasto tra le venature opache e il fondo luminoso e leggermente lucido della superficie valorizza la tridimensionalità dell'effetto piallato.

La trame uniforme et l'absence de nœuds de la sélection Elegant explorent le caractère plus raffiné du chêne rouvre. Entice Elegant reproduit l'aspect du bois poli et huilé : le contraste entre les veinures mates et le fond lumineux et légèrement brillant de sa surface valorise la tridimensionnalité de l'effet poncé.

Das gleichmäßige Muster ohne markante Asteinschlüsse der Ausführung Elegant stellt den edlen Charakter von Eichenholz besonders gut heraus. Entice Elegant gibt die Optik von geschliffenem und geöltem Holz wieder: Der Kontrast zwischen den matten Maserungen und dem helleren und leicht schimmernden Hintergrund der Oberflächenvariante bringt die Plastizität der Hobeloptik ansprechend zur Geltung.

La textura uniforme y la ausencia de nudos de la selección Elegant exploran el alma más fina del roble. Entice Elegant reproduce el aspecto de la madera pulida y aceitada: el contraste entre la veta mate y la superficie brillante, ligeramente lustrosa, realza la tridimensionalidad del efecto cepillado.

У варианта Elegant более однородный рисунок, без сучков, который раскрывает самую изысканную сущность дуба. Entice Elegant воспроизводит полированную и промасленную древесину: контраст между матовыми прожилками и слегка блестящим фоном подчеркивает трехмерность поверхности с эффектом строгания.

# All the taste of the traditional woodwork.

The Natural and Elegant styles feature a delicate three-dimensional surface inspired by ancient wood planing techniques. The perception of the wavy profile changes significantly depending on the light: the planing effect becomes more or less prominent based on the angle of the light on the planks.

Le selezioni Natural ed Elegant sono arricchite da un delicato effetto tridimensionale della superficie, che si ispira alle antiche tecniche di piallatura del legno. La percezione del profilo ondulato cambia fortemente a seconda dell'illuminazione: in base al modo in cui la luce cade sulle doghe, l'effetto di piallatura acquista più o meno risalto.

Les sélections Natural et Elegant sont enrichies d'un délicat effet tridimensionnel de la surface qui s'inspire des anciennes techniques de ponçage du bois. La perception du profil ondulé change radicalement en fonction de l'illumination : selon l'angle de la lumière sur les listels, l'effet poncé révèle plus ou moins de relief.

Die Versionen Natural und Elegant besitzen einen leicht dreidimensionalen Oberflächeneffekt, dem traditionelle Hobeltechniken für Holz als Anregung dienten. Je nach Beleuchtung ändert sich die Wahrnehmung des welligen Profils stark: Abhängig davon, wie das Licht auf die Dielen fällt, tritt der Hobeffect mehr oder weniger deutlich hervor.

Las selecciones Natural y Elegant se enriquecen con un delicado efecto de superficie tridimensional, inspirado en las antiguas técnicas de cepillado de la madera. La percepción del perfil ondulado cambia mucho en función de la iluminación: según la forma en que la luz incide sobre las duelas, el efecto de cepillado se hace más o menos prominente.

Мягкий рельеф поверхностей Natural и Elegant имитирует фактуру строганой по старинной технике древесины. Восприятие волнистого профиля меняется в зависимости от освещения: при изменении угла падения света, эффект строгания приобретает более или менее выраженный характер.

# A sustainable choice for the planet.

© Ceramiche Atlas Concorde

Wood-effect porcelain tiles reproduce the authentic, natural character of the original material and are an ethical, responsible, and sustainable choice, made with the utmost respect for the environment. Their use tackles the felling of trees and forests, and reduces the consumption of chemicals having a high environmental impact such as paints and agents commonly used for the protection and maintenance of natural woods.

Il gres porcellanato effetto legno ripropone il sapore autentico e naturale del materiale di ispirazione ed è una scelta etica, responsabile e sostenibile, compiuta nel massimo rispetto dell'ambiente. Il suo utilizzo preserva l'abbattimento di alberi e foreste e riduce inoltre il consumo di sostanze chimiche ad alto impatto ambientale, come vernici e impregnanti comunemente utilizzati per la manutenzione del legno naturale.

Le grès cérame effet bois propose la saveur authentique du bois d'inspiration et c'est un choix éthique, responsable et durable, réalisé dans le plus grand respect de l'environnement. Son utilisation préserve les arbres et les forêts de l'abattage et réduit aussi la consommation de substances chimiques à haut impact sur l'environnement, comme les vernis et les produits d'imprégnation couramment utilisés pour l'entretien du bois naturel.

Das Feinsteinzeug in Holzoptik bietet das authentische, natürliche Flair des als Vorbild dienenden Materials und ist eine ethisch nachhaltige und verantwortungsvolle Wahl zur Schonung der Umwelt. Der Einsatz dieses Materials schützt Bäume und Wälder vor der Abholzung und verringert zudem den Verbrauch von stark die Umwelt beeinträchtigenden Chemikalien wie Lacke und Imprägniermittel, die generell zur Pflege von Naturholz verwendet werden.

El gres porcelánico efecto madera recupera el sabor auténtico y natural del material en el que se inspira y es una opción ética, responsable y sostenible, realizada con el máximo respeto al medio ambiente. Su uso preserva los árboles y los bosques, a su vez reduce el consumo de productos químicos con un alto impacto medioambiental, como las pinturas y los impregnantes que se utilizan habitualmente para el mantenimiento de la madera natural.

Керамогранит под дерево имеет такой же красивый внешний вид, как у исходного природного материала, и при этом является этическим, ответственным, не вредящим природе выбором. Его использование помогает сохранить деревья и леса, а также сократить потребление вредных для природы химикатов, например красок и пропиток, которые обычно используются для ухода за натуральной древесиной.

## Sensitech SAFE. SOFT. SMART.

The innovative Sensitech finish is particularly recommended for installation in damp and wet areas. Its surface is soft to the touch and has a superior slip resistance, making wellness spaces pleasant and safe.

L'innovativa finitura Sensitech è particolarmente consigliata per la posa in ambienti umidi e zone bagnate. La sua superficie è morbida al tatto e presenta un'elevata resistenza allo scivolamento, rendendo gli ambienti wellness piacevoli e sicuri.

La finition innovante Sensitech est particulièrement conseillée pour la pose dans les zones humides et mouillées. Sa surface est douce au toucher et présente une résistance élevée à la glissade, en rendant les lieux de bien-être sûrs et agréables.

Das innovative Oberflächenfinish Sensitech ist besonders empfehlenswert für die Verlegung in Feucht- oder Nasszonen. Mit weicher Haptik und hoher Rutschsicherheit sorgt dieses Material in Wellnessbereichen für eine sichere und angenehme Atmosphäre.

El innovador acabado Sensitech está especialmente recomendado para la colocación en zonas húmedas y en ambientes mojados. Su superficie es suave al tacto y tiene una gran resistencia al deslizamiento, lo que hace que los ambientes wellness sean agradables y seguros.

Иновационная поверхность Sensitech особенно рекомендована для укладки во влажных и мокрых местах. Ее мягкость на ощупь и высокое сопротивление скольжению делают СПА-пространства приятными и безопасными.

# Patterns of elegance.

The Elegant version, free of obvious knots, brings out the slender grains of the finest wood and allows you to express yourself with a design with refined tones.

La variante Elegant, priva di nodi evidenti, valorizza le venature slanciate del legno più pregiato e permette di esprimersi con un design dai toni ricercati e raffinati.

La variante Elegant, sans nœuds apparents, valorise les veinures élancées du bois le plus précieux qui peut alors s'exprimer avec un design aux tons recherchés et raffinés.

Die Variante Elegant hat keine markanten Asteschlüsse und sorgt mit ihren feinen Maserungen für ein edles und geschmackvolles Design.

La variante Elegant, libre de nudos evidentes, realza la esbelta veta de la madera más fina y le permite expresarse en un diseño con tonos sofisticados y refinados.

Вариант Elegant обладает однородной текстурой с длинными элегантными прожилками, без сучков. Оформленные им интерьеры выглядят изысканно и стильно.

RESTAURANT

# Comfortable moments.

The wood-effect porcelain tiles of Entice are resistant, durable, and convey all the flavor of the original wood for years and years. For this reason, they lend themselves well to spaces subject to significant stress and intense foot traffic, such as restaurants.

Il gres porcellanato effetto legno di Entice è una materia resistente e durevole, che restituisce tutto il sapore della materia naturale anche a distanza di anni. Per questo motivo, si presta a essere posato in ambienti caratterizzati da sollecitazioni importanti e intenso calpestio, come i ristoranti.

Le grès cérame effet bois d'Entice est un matériau résistant et durable qui transmet toute la saveur du matériau naturel, même après de nombreuses années. C'est pourquoi il se prête à la pose dans les espaces caractérisés par une grande affluence et de fortes sollicitations, comme les restaurants.

Das Feinsteinzeug in Holzoptik der Kollektion Entice ist ein robustes und langlebiges Material, das auch nach vielen Jahren noch seinen ganzen natürlichen Charme behält. Deshalb eignet es sich zur Verlegung in stark beanspruchten Räumen mit hoher Trittbelastung wie beispielsweise Restaurants.

El gres porcelánico efecto madera de Entice es resistente y duradero y conserva todo el sabor del material natural incluso después de muchos años. Por este motivo, es adecuado para su instalación en entornos de gran tensión y de intenso paso, como los restaurantes.

Керамогранитная плитка под дерево Entice прочна, долговечна и сохраняет неизменной свою красоту даже после долгих лет эксплуатации. Все это делает коллекцию идеальной и для ресторанов, где постоянно бывает много людей и покрытия подвергаются интенсивным эксплуатационным нагрузкам.

THE BENEFITS OF CERAMIC TILES

© Ceramiche Atlas Concorde

The Sensitech surface, soft and pleasant to the touch, counteracts the accumulation of dust and dirt particles and is therefore easier and faster to clean.

La superficie Sensitech, morbida e gradevole al tatto, contrasta l'accumulo delle particelle di polvere e sporco e risulta per questo più facile e veloce da pulire.

La surface Sensitech, douce et agréable au toucher, empêche aux salissures et aux particules de poussière de s'incruster, et résulte ainsi plus facile et plus rapide à nettoyer.

Das Oberflächenfinish Sensitech besitzt eine weiche, angenehme Haptik und verhindert die Ablagerung von Staub- und Schmutzpartikeln, ist daher besonders leicht und schnell zu reinigen.

La superficie Sensitech, suave y agradable al tacto, contrarresta la acumulación de polvo y partículas de suciedad y, por tanto, es más fácil y rápida de limpiar.

Мягкая и приятная на ощупь поверхность Sensitech препятствует оседанию грязи и пыли, что делает процесс уборки быстрым и легким.

THE BENEFITS OF  
CERAMIC TILES

The Pale Oak color variant reproduces the suggestive straw-yellow shades of oak, lending itself to the creation of warm, bright, and comfortable spaces.

La variante di colore Pale Oak riproduce le suggestive nuance giallo-paglierine del rovere, prestandosi alla realizzazione di atmosfere calde, luminose e confortevoli.

Le coloris Pale Oak reproduit les nuances suggestives couleur jaune paille du chêne rouvre et se prête à la réalisation d'atmosphères chaleureuses, lumineuses et confortables.

Die Farbvariante Pale Oak gibt die effektvollen strohgelben Nuancen der Eiche wieder und eignet sich perfekt für Räume, die warm, hell und einladend wirken sollen.

La variante de color Pale Oak reproduce los llamativos matices amarillo pajizo del roble y se presta a la creación de ambientes cálidos, luminosos y confortables.

Цвет Pale Oak воспроизводит соломенно-желтые оттенки древесины дуба и помогает создать в интерьере теплую и светлую атмосферу.

# The evolution of ceramic surfaces.

The constant research of Atlas Concorde Laboratories has led to the creation of Sensitech, the porcelain tile surface made using a production method patented in Italy. Sensitech is a high-tech surface for interiors that combines high slip resistance with an unrivaled soft touch, which also makes it resistant to dirt and easier to clean. With Sensitech the meaning of surface evolves and takes on a reassuring, protective, and pleasantly refined touch, making architectural spaces increasingly comfortable and appealing.

Dalla costante ricerca dei Laboratori Atlas Concorde nasce Sensitech, la superficie in gres porcellanato realizzata con metodo produttivo brevettato in Italia. Una superficie ad alto coefficiente tecnologico per gli ambienti interni, in grado di coniugare elevate prestazioni di resistenza allo scivolamento ad un'inedita morbidezza tattile, che la rende anche resistente allo sporco e più facile da pulire. Con Sensitech il significato di superficie si evolve e assume un tocco rassicurante, protettivo e piacevolmente raffinato, rendendo gli spazi architettonici sempre più confortevoli ed appaganti.

La recherche constante des Laboratoires Atlas Concorde a créé Sensitech, la surface en grès cérame pour intérieur réalisée avec un procédé de fabrication breveté en Italie. Une surface à haut coefficient technologique pour les espaces intérieurs, en mesure de conjuguer de hautes performances de résistance à la glissance avec une douceur tactile inédite, qui la rend également résistante aux salissures et plus facile à nettoyer. Avec Sensitech, c'est l'acception même d'une surface qui évolue en offrant une caractéristique rassurante, protectrice et agréablement raffinée, qui rend les espaces architecturaux de plus en plus confortables et agréables à vivre.

Durch kontinuierliche Forschung der Atlas Concorde Laboratorien entsteht Sensitech, die Feinsteinzeugoberfläche, die mit einem in Italien patentierten Herstellungsverfahren produziert wird. Eine Hightec-Oberfläche für Innenräume, die hohe Rutschfestigkeit mit unerwartet weicher Haptik verbindet, welche sie auch schmutzunempfindlicher und reinigungsfreundlicher macht. Mit Sensitech erreicht die Oberfläche ein ganz neues Niveau in Sachen Zuverlässigkeit, Schutz und Schönheit. Und macht damit unsere Räumlichkeiten noch attraktiver und komfortabler.

De la constante investigación de los Laboratorios Atlas Concorde nace Sensitech, la superficie de gres porcelánico para interiores realizada con un método de producción patentado en Italia. Una superficie de alto coeficiente tecnológico capaz de combinar un alto rendimiento de resistencia al deslizamiento con una suavidad táctil sin precedentes, que además la vuelve resistente a la suciedad y más fácil de limpiar. Con Sensitech, el significado de la superficie evoluciona y adquiere un toque tranquilizador, protector y agradablemente refinado, haciendo que los espacios arquitectónicos sean cada vez más cómodos y satisfactorios.

В результате исследований, выполненных в лабораториях Atlas Concorde, появилась керамогранитная поверхность Sensitech. Новая поверхность с высокими техническими показателями для интерьеров, которая сочетает отличное сопротивление скольжению и удивительную мягкость на ощупь, устойчива к загрязнениям и крайне проста в чистке и уходе. Поверхность Sensitech – на новом витке технической эволюции, она безопасна, приятна, изысканна и делает пространства уютнее и удобнее.

\*) The permissible deviation, in % or mm, of the average size for each tile (2 or 4 sides) from work size (WS).  
 \*\*) The permissible deviation, in % or mm, of the average thickness for each tile from the work size thickness (WS).  
 \*\*\*) The maximum permissible deviation from straightness, in % or mm, related to the corresponding work sizes (WS).  
 \*\*\*\*) The maximum permissible deviation from rectangularity, in % or mm, related to the corresponding work sizes (WS).  
 c.c. The maximum permissible deviation from centre curvature, in % or mm, related to diagonal calculated from the work sizes (WS).

 (1) Determination of slip resistance of pedestrian surfaces; it does not cover sports surfaces and road surfaces for vehicles (skid resistance).  
 (2) Anti-slip performance is guaranteed at the time of delivery of the product.  
 (4) For further details, please refer to outdoor design general catalogue.  
 (5) Only for products with 20 mm thickness.

### Energy efficiency

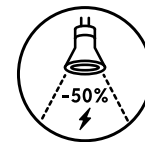

100% autonomous on energy

Hot air heat recovery from kilns and cooling water

40% savings on natural gas

100% LED lighting 50% ANNUAL SAVINGS in electricity consumption

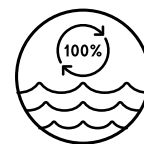

### Waste management

100% recycled scraps

99% of waste sent for recovery and 25% waste reduction in the last two years

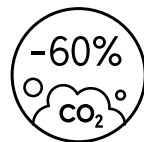

100% recycled industrial water and 27% reduction in water consumption in the last two years

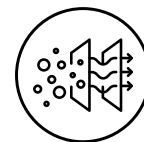

### Environment and health first

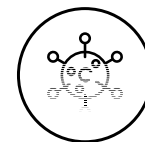

Cardboard and other packaging: 100% recycled material

MAV Automatic Vertical Warehouse: 60% CO2 reduction

Complete air filtration

Absence of carcinogenic substances in products

An ecological transition is among the company's industrial priorities. Our plants comply with the most stringent international regulations – fully automated and low-impact – as they are equipped with energy cogeneration systems. A constant commitment to the total reduction of waste and emissions completes the picture of a company oriented towards maximum environmental sustainability.

La transizione ecologica è tra le priorità industriali dell'azienda. I nostri impianti sono conformi alle più stringenti normative internazionali, completamente automatizzati e a basso impatto, in quanto dotati di sistemi di cogenerazione energetica. Il costante impegno per la totale riduzione degli sprechi e delle emissioni completano il quadro di un'azienda orientata alla massima sostenibilità ambientale.

La transition écologique est une des priorités industrielles de l'entreprise. Nos installations sont conformes aux réglementations internationales les plus sévères, entièrement automatisées et à faible impact, car équipées de systèmes de cogénération énergétique. L'engagement constant pour la réduction totale du gaspillage et des émissions complète le tableau d'une entreprise engagée pour une meilleure durabilité environnementale.

Der ökologische Wandel gehört zu den Prioritäten der industriellen Strategie des Unternehmens. Unsere Anlagen entsprechen den strengsten internationalen Richtlinien; sie arbeiten vollautomatisch und umweltschonend, denn sie sind mit Kraft-Wärme-Kopplungssystemen ausgerüstet. Ein weiterer Aspekt dieses Unternehmens, das sich ganz der Erreichung maximaler ökologischer Nachhaltigkeit verschrieben hat, ist sein kontinuierliches Engagement für die völlige Eliminierung von Verschwendung und Emissionen.

La transición ecológica está entre las prioridades industriales de la empresa. Nuestras plantas cumplen las normas internacionales más estrictas, totalmente automatizadas y de bajo impacto, ya que están equipadas con sistemas de cogeneración energética. Los esfuerzos constantes por reducir completamente los residuos y las emisiones completan la imagen de una empresa centrada en la máxima sostenibilidad medioambiental.

Экологический переход – один из основных технологических приоритетов компании. Наши производственные процессы отвечают требованиям строжайших международных стандартов, автоматизированы, оказывают минимальное воздействие на окружающую среду, а кроме того, на заводе работает собственная когенерационная установка. А еще мы принимаем меры по сокращению отходов и выбросов, что является еще одним свидетельством ориентации на экологическую устойчивость.
