CONSIGLI PER LA POSA

POSA A CORRERE - La posa a "correre" necessita una maggiore premura nelle fasi di livellaggio e accostamento dei singoli pezzi, per poter attenuare eventuali differenze di planarità. Sebbene inevitabili queste piccole differenze non compromettono un buon risultato finale: dunque è consigliato sfalsare i singoli pezzi di 15-20 cm massimo.
IMPORTANTE - La posa sfalsata al 50% non è consigliata. Trattandosi di materiali ceramici si suggeriscono le seguenti pose:

FIXING ADVICE

PARALLEL FIXING - To minimize differences in the flatness of the tiles, "parallel" fixing requires greater attention when the individual tiles are positioned and levelled. Although these small differences are inevitable, they will not spoil a good final result: the individual tiles should thus be staggered 15-20 cm at most.
IMPORTANT - Please note that fixing in a 50% staggered configuration is not recommended. We suggest the following fixing configurations for these ceramic materials:

CONSEILS DE POSE

POSE A FOND PERDU - La pose à "fond perdu" nécessite une très grande attention dans les phases de nivellement et d'assemblage des différentes pièces, de manière à atténuer les différences éventuelles de planéité. Ces petites différences sont inévitables, mais ne compromettent pas un bon résultat final: il faut donc décaler les différentes pièces de 15-20 cm maximum.
IMPORTANT - A pose décalée à 50% n'est pas recommandée. Pour les matériaux céramiques nous conseillons les poses suivantes:

TIPPS ZUR VERLEGUNG

FORTLAUFENDE VERLEGUNG - Die fortlaufende Verlegung (eine Platte nach der anderen) erfordert mehr Sorgfalt beim Ebenen und Anlegen der einzelnen Teile, um eventuelle Ebenheitsunterschiede zu mindern. Obwohl sie unvermeidlich sind, stellen diese kleinen Unterschiede keine Beeinträchtigung des guten Endergebnisses dar: Es ist deshalb ratsam, die einzelnen Teile um max. 15-20 cm zu versetzen.
WICHTIG! - Die um 50% versetzte Verlegung nicht empfohlen ist. Da es sich um Keramikmaterial handelt, kann man die folgenden Verlegungen empfehlen:

RECOMENDACIONES PARA LA COLOCACIÓN

COLOCACIÓN LONGITUDINAL - La colocación longitudinal necesita un mayor cuidado en las fases de nivelación y colocación de las piezas individuales, para poder atenuar posibles diferencias de planicidad. No obstante son inevitables, estas pequeñas diferencias no impiden la obtención de un buen resultado final: se recomienda escalonar las piezas individuales con un máximo de 15-20 cm.
IMPORTANTE - La colocación escalonada al 50% no se recomienda. Puesto que se trata de materiales cerámicos, se recomiendan las siguientes colocaciones:

КОМПАНИЯ

ПАЛУБНАЯ УКЛАДКА Палубная укладка требует большего внимания на этапе выравнивания и смыкания отдельных единиц, чтобы уменьшить возможные различия плоскости. Несмотря на то, что эти небольшие различия неизбежны, они не влияют на конечный результат: поэтому рекомендуется располагать отдельные единицы зигзагом максимум в 15-20 см.
ВАЖНО: не рекомендована укладка зигзагом в 50%. Так как речь идет о керамических материалах, рекомендуются следующие методы укладки:

SÌ POSA 10%/20%

NO POSA 50%

Nelle scatole la disposizione delle piastrelle è casuale ed alcune potrebbero ripetersi: si consiglia quindi di miscelare i pezzi prima delle pose.

In the boxes, the sequence of the various faces is random and some could be repeated: it is therefore recommended to mix tiles, from different boxes and different from each other, before starting the laying.

La composition des boîtes est faite avec des pièces différentes prises au hasard, encore que certains d'entre eux pourraient se répéter dans la même boîte: pour cela on conseille d'ouvrir plusieurs boîtes au même temps et de mélanger les pièces avant la pose.

Boxen in der Anordnung der Fliesen ist zufällig und einige vielleicht wiederholt werden: Es wird vorgeschlagen, um die Stücke platziert, bevor mischen.

En las cajas la disposición de las baldosas es casual y algunas podrían estar repetidas: se recomienda por tanto mezclar las piezas antes de la colocación.

В коробках расположение плитки случайно, некоторые могут повторяться, поэтому рекомендуется смешать единицы материала перед укладкой.
